# PUBLIC NOTICE

## BRIDGE CULVERT REPLACEMENT PROJECT: On TWP 520 between RR 35 and RR 40

The County of Vermilion River plans on replacing the Bridge Culvert Structure # 09118 located approximately 360 meters east of RR 40. The County has identified that it is a necessity to replace this Bridge Culvert Structure in order to improve public safety, functionality, site lines, drainage improvements and load bearing capacity of this structure.

### PROJECT

#### TIMELINES:

\* every effort will be made to meet these deadlines, however, the project may be delayed or interrupted at any time due to weather, environmental or other impacts.

EST. START DATE	DURATION	OPERATIONS
Oct 15, 2018	4-5 weeks	Construction operations will run 7 days a week from 7am-7pm for the duration of the project

### PROJECT OPERATIONS:

The Construction is planned to start Oct 15, 2018 and will take approximately 4-5 weeks to complete, weather permitting. Construction operations will run 7 days a week from 7am to 7pm and will continue until completed. If not completed by freeze up the project will be shut down and will start up again in the spring. The roadway will be left in a full passable condition during the winter.

**Road Closure and Detour** - In order to complete the bridge culvert replacement the County will be closing TWP 520 between RR 35 and RR 40 for the duration of the project starting October 15, 2018. Road Closure and Detour Signs will be posted. Please obey all signage.

If you have any further questions regarding the project, please contact Public Works at (780) 846-3309. Further notices will be posted on our website and social media as the project nears.

## Thank you for your cooperation!
